PROFESSIONAL SUMMARY

Early-career software developer and BS Computer Science student with hands-on experience building web and mobile applications. Developed a React and Node.js franchise order portal used in production, a Flutter e-commerce app, and an Android educational game with offline multiplayer synchronization. Seeking an entry-level software development role.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, Python, GDScript, SQL, HTML, CSS

Web: React, Next.js, Node.js, Vite, Tailwind CSS

Mobile & Games: Flutter, FlutterFlow, React Native, Godot (Android export)

Backend & Data: MySQL, Firebase, Supabase, MongoDB, REST APIs

Tools & Workflow: Git, GitHub, GitHub Actions (CI/CD), GitHub Pages, Android Studio, Figma, VS Code

EXPERIENCE

Software Engineer & Application Developer Intern (OJT) | BidaBoss Inc. | Pasig City | Aug 2025 – Sep 2025

- Developed a React and Node.js franchise Agent Portal backed by MySQL to centralize franchise order management; the portal is live and used by the company.
- Built a Flutter e-commerce mobile app connected to a MySQL backend, including sales overview, order statuses, inventory, store, and order screens.

SELECTED PROJECTS

WaterWise | Android Educational Game & Undergraduate Thesis | 2025–2026

Godot, GDScript, Android, CRDT | github.com/N0rrtthh/WaterWise

- Co-developed a water-conservation game with single-player and offline co-op multiplayer over a phone's Wi-Fi hotspot as one of three thesis proponents.
- Implemented rule-based adaptive difficulty using a rolling five-game proficiency window and an integer-only G-Counter CRDT for score synchronization.
- Measured 28.2–29.6 FPS on a Motorola Moto E5 Plus; score replicas converged in all 180 simulated trials at 10–90% packet loss, with sync updates 76–83% smaller than JSON.

ResuMaker | Résumé Builder Web App | 2026

React, TypeScript, Vite, GitHub Actions | n0rrtthh.github.io/ResuMaker

- Designed and built a résumé editor with live preview, ATS-inspired feedback, JSON import/export, local drafts, print-to-PDF, and optional AI review with a local fallback.

QuickAttend | QR Attendance System (Web & Mobile) | 2024

FlutterFlow, Flutter, Dart, Firebase | quick-attend-web-1dsail.flutterflow.app

- Built a web admin app for session QR codes and attendance management, plus a mobile scanner using face recognition as a second verification factor.

Additional projects: JasFocus (productivity timer), WaveLength (anonymous real-time chat), Neon Smash (Python/Pygame arcade game), and web portfolio projects. See portfolio for links and details.

EDUCATION

BS Computer Science | Cavite State University – Main Campus | Indang, Cavite | 2022–Present

Thesis: WaterWise — educational game using deterministic rule-based adaptive difficulty and CRDT synchronization; defended in 2026.

CERTIFICATIONS

29 certifications total across Cisco, IBM SkillsBuild, DICT and other providers. Selected relevant credentials: AI Fundamentals: Foundations for Understanding AI; AI Fundamentals: Language and Vision in AI; Enterprise Design Thinking Practitioner; Ethical Hacker; JavaScript Essentials 1 & 2; Python Essentials 1 & 2; HTML Essentials; CSS Essentials; Introduction to Cybersecurity; Data Analytics: Your Game-Changer for 2025. See portfolio for the full list and verification links.

LEADERSHIP & ACTIVITIES

VP for Public Relations & Information, Computer Science Student Organization, CvSU (2023–2024) | Spade Member, Amazon Web Services Learning Club, CvSU (2024–2025) | Member, Junior Philippine Computer Society (2023–2024)
