ELRONI QUIÑONES

Software Developer | Web & Mobile Applications | Automation

Dasmariñas, Cavite, PH | 0908 583 8289 | quinoneselroni@gmail.com | linkedin.com/in/elroni-quinones | github.com/N0rrtthh

SUMMARY

Early-career software developer and BS Computer Science student at Cavite State University. Shipped a franchise order management portal (React, Node.js, MySQL) now in active use at BidaBoss Inc., a Flutter e-commerce app, and an offline multiplayer Android game in Godot. Seeking an entry-level developer role.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, Python, GDScript, SQL, HTML, CSS

Web: React, Next.js, Node.js, Vite, Tailwind CSS

Mobile & Games: Flutter, FlutterFlow, React Native, Godot (Android export)

Backend & Data: MySQL, Firebase, Supabase, MongoDB, REST APIs

Tools & Workflow: Git & GitHub, GitHub Actions (CI/CD), GitHub Pages, Android Studio, Figma, VS Code

EXPERIENCE

Software Engineer & Application Developer Intern (OJT) — BidaBoss Inc., Pasig City **Jul 2025 – Dec 2025**

- Developed the BidaBoss Agent Portal, a centralized web-based franchise order management system, with React and Node.js on MySQL — now live and in use by the company.
- Built the BidaBoss e-commerce mobile app in Flutter with a MySQL backend: sales overview, order statuses, inventory, store and orders.

PROJECTS

WaterWise — Educational Android Game (Undergraduate Thesis) **2025 – 2026**

Godot, GDScript, Android, CRDT — github.com/N0rrtthh/WaterWise

- Co-developed a Godot game on water conservation with single-player and offline co-op multiplayer over a phone's Wi-Fi hotspot, as one of three thesis proponents.
- Implemented rule-based rolling-window adaptive difficulty (Weighted Proficiency Index over five games) and an integer-only G-Counter CRDT for score sync.
- Averaged 28.2–29.6 FPS on a Motorola Moto E5 Plus; sync replicas converged in all 180 trials at up to 90% packet loss with updates 76–83% smaller than JSON.

ResuMaker — Résumé Builder Web App **2026**

React, TypeScript, Vite, GitHub Actions — n0rrtthh.github.io/ResuMaker

- Built a two-panel résumé editor with live preview, an ATS-inspired quality score, JSON import/export and print-to-PDF; optional OpenAI review with a local fallback.

QuickAttend — QR Attendance System (Web + Mobile) **2024**

FlutterFlow, Flutter, Dart, Firebase — quick-attend-web-1dsail.flutterflow.app

- Built a web admin that issues a QR code per session and a mobile scanner that adds face recognition as a second verification factor.

EDUCATION

BS Computer Science — Cavite State University – Main Campus, Indang, Cavite **2022 – Present**

Thesis: WaterWise — an educational game using deterministic rule-based adaptive difficulty and CRDT synchronization (defended 2026).

CERTIFICATIONS

- AI Fundamentals: Foundations for Understanding AI — Cisco, IBM SkillsBuild (2026)
- Enterprise Design Thinking Practitioner — IBM SkillsBuild (2026)
- Ethical Hacker — Cisco (2026)
- JavaScript Essentials 1 & 2 — Cisco (2026)
- AI Fundamentals: Language and Vision in AI — Cisco, IBM SkillsBuild (2026)
- Python Essentials 1 & 2 — Cisco (2026)

LEADERSHIP & ACTIVITIES

- **VP for Public Relations & Information**, Computer Science Student Organization, CvSU (2023 – 2024)
- **Spade Member**, Amazon Web Services Learning Club, CvSU (2024 – 2025)
- **Member**, Junior Philippine Computer Society (JPCS), CvSU (2023 – 2024)
